CAREER OBJECTIVE

I am a final year student of Duy Tan University majoring in Big Data and Machine Learning. With the specialized knowledge and skills that I have accumulated when participating in school, I believe that I am suitable for the Python developer position of fresher at Rikkeisoft company. In the future, I hope that I will become an incredible developer and the opportunity to work at your company will help me improve my capacity. During my time at university, I have developed excellent code skills and organizational skills due to a series of close-knit coursework deadlines and exams. As a result, I am incredibly adaptable and able to work well under pressure effectively.
